### Our Objective

To improve customer satisfaction by assuring prompt delivery of Quality products by reducing rejection and replacements.

### Our Vision

Our vision focus on three key points: To implement AIDC even in the remote or rural areas at an affordable cost with utmost transparency in business. To forge new relationships and increase our visibility. To Research and Develop innovative technology in AIDC industry where we can prove our competence and deliver the best mewtech can offer at a competent price.

### Our Mission

To provide AIDC Technology solution to the customers by making available smart, innovative, affordable and optimised AIDC solutions thereby improving the efficiency & productivity of their Business and quality of time of the end users thereby making profit for the development of mewtech and the team who stand with us for our growth.

## RFID Solutions:

More and more retailers are taking advantage of item-level tracking for apparel and seeing significant results. The growing RFID activity in retail apparel stems from the public validation by retailers that tagging apparel at the item level offers a very high return on investment. Leading retailers are now cooperating to hasten the adoption of RFID and item-level tagging. Industry group VICS and its members are leading the way in the development of standards that impact the retail market.

RFID benefits retailers by taking visibility to another level. Confidence that inventory problems can be prevented, or detected and corrected, allows retailers to achieve the same or better fulfillment with less inventory. Visibility also means that management can monitor and improve store operations by holding store personnel accountable for key functions, such as accurate and timely replenishment, and loss prevention.

## Barcode Printer Solutions

We provide barcode solution to remove the tradition approach and use the modern edge solution in inventory and warehouse. In warehouse and Inventory barcode solution which will allow you to incorporate the automatic data capturing system to have up to date information in our system with low operational cost. Barcode solution will decrease the data capture errors and increase the capability of work with cost effective. Mewtech is the supplier of Datamax-O'Neil, Honeywell & TSC which has a range of lightweight and compact desktop printers, designed for applications that require a reliable and cost effective barcode printer, across a wide variety of industries. It is affordable to own, easy to use and economical to operate and is available in four distinct models: Basic, Advanced, Professional, Professional+

## Barcode Labels

mewtech is counted among the leading suppliers of highly demanded Barcode label. Manufactured from superior quality raw material, this labels delivered as die-cut blank/pre-printed labels on various forms such as roll or sheet. Barcode labels are used for product identification, Tracking Inventory Control etc... Our label are widely demanded in Logistic, Retail, Jewellers, Garment Industries and Bakers etc.

## Barcode Scanners

The wide range of general purpose handhelds readers offer users a variety of choices for their data collection activities. Product sets offer conventional laser, linear or area imaging technology, plus a variety of features to meet specific scanning needs.

## Digital Signage

With all of these challenges, it is imperative that retailers adapt by creating clear points of differentiation for the in-store experience. They must target and diversify marketing campaigns to maximize message efficacy; they must simplify in-store service and streamline information delivery; and they must increase cost efficiency by reducing operation cost.

Looking to address these needs, digital signage opens up a world of possibilities for retailers, which will enable them to thrive in the new retail economy:

- Connect to diverse content sources for a rich information environment.
- Communicate specific brand identity through HD imagery
- Deliver important information on time-sensitive promotional opportunities.

Samsung Display Solutions offers a streamlined product lineup that can be deployed and managed with ease. With these powerful tools, retailers are able to create a visually impactful, information-rich shopping experience.

## Smart cards, Proximity cards & ID card Printer

Mewtech help you find the right solution for Smart ID card, Proximity card, Loyalty card & ID card Printer for your organization and on budget. In marketing generally and in retailing more specifically, issuing a loyalty card, rewards card, points card, advantage card, or club card is marketing tool for rewarding current customers and attracting new ones. We offer the best cards and ID card Printer at a very competitive price. A smart card does not perform any amazing tasks. A smart card, however, can perform all the transactions that are now carried out by magnetic stripe card or a plastic card plus many other computing tasks. A smart card can also store information in a secure format.

## Point of Sale System

Point-of-sale (POS) is the place where a retail transaction is completed. It is a place where the customer pays money for the purchase of goods and services. At the point of sale the retailer would estimate the amount to be paid by the customer and provide options for the customer to make payment. The merchant will also normally issue a receipt for the transaction.

### Use of POS system

- Permits to track sales and the goods and items in the rack and adjust purchase levels accordingly
- We can maintain sales history and can make buying decision seasonally.
- We can maintain the price accurately by integrating barcode and RFID, also accepts credit and debit cards options
- POS modules included with integrated accounting modules where we can generate receivable accounts, payable accounts, purchasing, and inventory and warehouse control.

The Point of Sale is used in various retail industries with the help of customized hardware and software as per their unique requirements. At this point retailers may use weighing scales, barcode scanners, electronic computers, Computer CPU & display, cash register, receipt printer, touch display, UPS, EFTPOS terminals, touch screens and other wide variety of hardware and software available for use with POS system.

POS is mainly used in Retail Outlets, Restaurants, Bars & Clubs, Beauty Parlor, Jewelry Shops, Cinemas & Entertainment, Malls & Super Markets and many more places. Mewtech provides end-to-end solutions for any type of Point Of Sale requirements.
